Notice to Merchants.

FORWARDING OFFICE S. C. R. R. Co.
CHARLESTON, March 16, 1861.

THE South Carolina Railroad Company having determined to discontinue this department of the service, the undersigned, who has been the forwarding Agent of the Company for the last four or five years, has associated with him the Chief Clerk in the department, and, under the name of GANTT & STONY, will continue to RECEIVE and FORWARD such articles as may be consigned to his care. He trusts, by strict personal attention, to retain a very liberal share of the business of the department.

Parties are reminded that *all goods* now reaching this port from points beyond the Confederate States of America, must be entered at the Custom House, and that duties are payable on such as are not purchased on or before the 28th February last, *and laden on shipboard on or before the 15th March instant*, save such as are on the free list. It is therefore necessary that remittances be made to pay the duties where duties are payable, AND IN ALL CASES TO COVER THE EXPENSE OF CUSTOM HOUSE ENTRY, WHETHER THE GOODS ARE FREE OR NOT. Prompt compliance will prevent delay and expense, as all articles not entered and permitted will be stored by the Custom House officers. The South Carolina Railroad Company will advance, as heretofore, the charges of freight, drayage and wharfage, *but not the expenses connected with the Custom House.*

Rates of charges for forwarding will be very moderate, and may be had on application to GANTT & STONY, to whom all business communications should be addressed.

The undersigned refers to the officers of the South Carolina Railroad Company, to the customers of the Forwarding Department, and to all merchants of standing in the city of Charleston, and respectfully solicits a liberal share of patronage. JAMES L. GANTT.
Late Forwarding Agent S. C. R. R. Co.

A CARD TO THE PUBLIC.

THE NEWBERN

Daily and Weekly Progress.

IT IS ALREADY KNOWN TO THE PUBLIC that the unceremonious entrance of Burnside into Newbern on Friday last has compelled the temporary suspension of the PROGRESS. This was a barbarous and villanious proceeding of old Burnside, inasmuch as it has deprived the public of the advantages of a good paper, besides the inconvenience to the citizens of Newbern.

By the discomfiture of our arms at Newbern, I have lost everything I had in the world—presses, type, and stock and other office material and furniture and other property of all kinds, is all gone—but still I hope to be able to make arrangements at an early day to issue the PROGRESS at some point not very remote from the old stand; this will depend however upon the extent to which Burnside is able to penetrate the bowels of the land.

Having lost all I have, I must urge all who are indebted to the PROGRESS office to make immediate settlement. Though in the army my address will be for the present, Goldsboro, N. C.

☞ Papers in the State that receive the PROGRESS in exchange will please copy or notice this card. J. L. PENNINGTON.

PROSPECTUS
OF THE
HILLSBOROUGH RECORDER,
DEVOTED TO
POLITICS, AGRICULTURE, MISCELLANY, GENERAL NEWS.
PUBLISHED BY
DENNIS HEARTT.
HILLSBOROUGH, N. C.

WITH the present volume the RECORDER commenced the fortieth year of its existence, the first number having been issued the 10th of February, 1820; during all which time we have labored to make our paper interesting and useful, and we hope that in these particulars we have not been altogether unsuccessful. It has been our wish to make the RECORDER a good Family Paper, devoted to Politics, Agriculture, Miscellany, General News, &c., with a view to the entertainment and improvement of the farmers and citizens of the circle in which it is distributed. Our Agricultural department we endeavor to fill with the best selections we can make from all sources, giving preference to such as will be of practical use to the farmer and cultivator; and in this particular we hope to make the RECORDER as valuable to the agriculturist as any periodical of a purely agricultural character. In our Miscellaneous department, we shall contiue to be, as we have always been, careful to select such articles as will have a tendency not only to amuse, but to improve the mind and heart. While we shall be thankful to receive well-written articles to adorn our columns, we are not so ambitious of originality as not to prefer selected matter of superior merit, to loosely-written and ill-digested articles, though ornamented at the top with the coveted words—"Written expressly for the RECORDER." In our News department we shall take especial pains to present to our readers the latest intelligence; and to enable us to do so we have facilities equal to those enjoyed in any portion of the State, except those favored with telegraphic communication.

"The Edgecombe Farm Journal,"

And will contain original and selected articles upon Agriculture, Horticulture, Floriculture, Household Arts, Rural Architecture, Zoology, &c., &c.

It will be published with new type and clear white paper, in a neat quarto form.

PROSPECTUS
OF THE
STATE JOURNAL.

HAVING become the proprietor of the *Democratic Press.* I have merged that paper into the STATE JOURNAL, which will be published Semi-Weekly and Weekly.

The STATE JOURNAL will advocate Democratic principles in the broadest sense, and will support and defend Democratic measures and their advocates as they are presented, and as occasion may require. In other essentials it will be my aim to make the paper, what its name denotes, a State Journal—eschewing all sectional considerations and working for the entire State and her common interests.

As soon as arrangements can be made, the whole paper shall be re-modeled and printed with new type, on good paper, and in a superior manner.

The Editorial department will be properly attended to in its various branches, and will speak for itself. Neither labor nor expense will be spared in the management of the paper.

The *terms* of the State Journal will be as follows:

Semi-Weekly, per annum	$400
Weekly	200

These terms will be insisted upon *invariably in advance.* No name will be put upon the list without the money, and all papers will be discontinued at the expiration of the time for which they have been paid, unless the subscription be renewed. I am satisfied, from years of experience, that upon no other footing can any newspaper hope to succeed.

Advertisements of a proper character will be inserted at the following rates: Each subsequent insertion [illegible]

A liberal deduction on these rates for yearly advertisers in the Semi-Weekly. In the Weekly edition the full rates will be charged.

A NORTH CAROLINA PAPER
THE TIMES:
A large Eight-Page Weekly, published in Greensboro,
$2.00 a year; $1.00 for six months.

THE TIMES contains weekly forty columns of choice matter, specially adapted to the family circle. It is neither sectarian nor political, but by being courteous to all sects and parties, it is the constant aim of the publishers to present in its columns whatever may elevate the people and enrich the State. The publishers would earnestly appeal to the families of North Carolina to give THE TIMES a trial; try it for six months, to see if it be not as well to patronize home papers, as those from abroad; to build up home interests and a State pride, and to scatter our substance and our energies among strangers. Give THE TIMES a trial and then let it stand upon its merits.

WHAT IS SAID OF THE TIMES.

"The Times I regard as the very first of our Southern Literary Weeklies."—Rev. C. F. Deems.

"I know of no Weekly published anywhere, that is so deserving of public patronage as the Times."—Rev. J. E. Edwards.

"There is no pandering to a vitiated taste—every article is of a moral tendency, and calculated both to amuse and instruct."—Wilmington Herald

"One of the handsomest weekly papers published in the Union."—Spirit of the Age.

"Let the people of North Carolina encourage their own newspapers.—Raleigh Standard.

THE TIMES,

PROSPECTUS
OF
THE CHARLESTON MERCURY
A POLITICAL, COMMERCIAL, AND LITERARY NEWSPAPER
PUBLISHED DAILY AND TRI-WEEKLY

THE MERCURY gives daily reports of the Market and Marine Intelligence in Charleston, and of Charleston commerce in the leading seaports of the world. The Weekly Prices Current is made up with much care, and from the most reliable sources. Its connection with the "Associated Press" insures the latest intelligence by Telegraph and the earliest news by Steamers from Europe. It has an able and accomplished Correspondent in London (a gentleman connected with the editorial staff of the London Times,) and regular Correspondents in New York, Washington, Key West and Havana. The monthly New York Fashion Letters and weekly letters on Life in Washington are additional attractions in favor of its lady readers. Its literary notices, from the pen of a gentleman who occupies perhaps the highest position among the literary men of the South, are discriminating and comprehensive.—Attention is paid to all matters of general concern, especially those in reference to the Planting and Agricultural interest, and to the current news of the day. Great care is taken that nothing shall appear in its columns which should be excluded from the family circle.

The political creed of the MERCURY consists in the principles of the Democratic Party, as laid down in the Virginia and Kentucky Resolutions of 1798 and 1799—the Sovereignty of the States; a strict construction of the Federal Constitution by the General Government, the agent of the States; Free Trade, and an economical Administration of the Government. A corps of the best practical and scientific Agricultural writers have been secured, and its Editorial department will be under the care of one of the best Farmers in the land.

The Cash system will be rigidly adhered to, and no name will be entered on our books until the subscription is paid.

Address R. M. STOKES.

To the People of North Carolina.

At the request of President Davis, I have undertaken to collect all of the arms now in the hands of private citizens of our State. For that purpose I have been invested with authority to borrow, purchase, or, if necessary, to impress them. I am satisfied that it will never be necessary to resort to the use of the last named power. Patriots of North Carolina, our soil is invaded, and though we have men enough to repel the invaders, our men are useless unless they have arms. Upwards of 20,000 stand of arms are now lying useless in our houses; these arms should be collected and placed in the hands of our noble defenders. None but a craven or disloyal citizen will refuse to comply with this requisition. I will immediately appoint suitable agents to go through every county in the State, empowered to borrow, purchase, or, if necessary, impress arms; but in the meantime let me entreat all true patriots to send in all of their muskets, rifles and double-barrel shot guns (good, bad or indifferent,) to the sheriffs of the different counties, whom I do hereby authorize to receive and pay for them agreeably to the attached schedule of prices, and draw on me for the amount necessary.

For good rifles and muskets, $13 and $20 each, according to value; good double-barrel shot guns from $13 to $35, according to value; other arms and parts of arms according to valuation.

I have also been requested to purchase old scrap iron, whether cast or wrought, and of all weights, for which I will pay for the former 1½ cents per pound; for the latter 4 cents. W. S. ASHE.

Calculations and Predictions about the Weather.

To the Editor Charlotte Bulletin]

Estimates are frequently offered, by the learned as well as by others, with regard to peculiarities of the seasons. Every Almanac is filled with such; some of which are curiously exact, while others, are the contrary. Yet many, from habit, are led to refer with confidence to them.

In ancient times the Constellations were carefully observed, because thought to influence things on the earth by their distances or positions. Each vegetable was believed to be ruled by some distinct planet, as cabbages by Mars, turnips by Venus, carrots by Jupiter, and so on. That there are "fixed laws" which influence all these bodies, and every object in and about them, we cannot doubt. Observation and experience teach the principles of physical action by careful comparisons. But, frequently, the results of a special study are advanced, which seem to explain everything, yet, if these do not include every requisite element—they are liable to error and abuse.

Suppose protracted observations, during many years, teach us there is an annual average fall of rain distributed throughout different seasons; does this prove there can be no variation?

We have undoubtedly experienced a very wet Winter and Spring. A larger qantity of rain has fallen during past seasons than the usual average. Must we, necessarily, look for a dry Summer?

There may be frequent rains till the 1st of July, and still the annual average not prove extraordinary. By an entire absence of rain, for the rest of the year, "the early and the latter rains" may be regarded—continuous.

Men do not yet understand all the laws which regulate these phenomena; and should not predict, too certainly, until they do.

If our farmers are induced, even by certain scientific results, to plant their low lands, only, with corn, in anticipation of a dry Summer, and the rains continue; the upland corn will be most successful. By regarding a false prediction, we may loose both the early and the latter crop.

Let us be sure our advisers understand thoroughly what they attempt to explain; or be satisfied with the advice of an old observer. "Consider the works of God, for who can make that straight, which He has made crooked." "He that observeth the wind [*alone*] shall not sow, and he that regardeth the clouds [*alone*] shall not reap." "In the morning sow thy seed, and in the evening withhold not they hand, for thou knowest not whither shall prosper, either this or that; or whether both shall be good alike!"

Let us plant corn both in upland and low land, when we can; and trust to God for an increase, if we work it well.

Various atmospheric changes which occur periodically are largely attributed to a special electrical condition of the atmosphere. Lightning, thunder, winds, rain, hail, snow, sleet, frost, dews, clouds and fogs are all understood to be influenced by this subtle element.

Many propositions have been made to controul its influences, to preserve fruit from frosts; to promote rains in dry seasons and to protect houses from lightning.

One means to procure rain was suggested, by burning large quantities of wood and brush during a dry season. The experiment failed. To preserve grape vines in France, telegraphic poles, with upright wires, were used to controul the electricity of the atmosphere, as by lightning rods to houses, to induce the quiet passage of the fluid from the clouds to the earth.

The only considerable encouragement either of these plans has received, is the last, in consequence of the well known, simple and intelligible experiments of Dr. Franklin. Still no one doubts some physical effects may be caused by various actions, now in progress, of an unusual char-

A million of men all formerly protected by a written constitution of government, in the peaceful possession of property of every discription, are arrayed in arms for aggression, or for defence. Let us consider for a moment in what degree the numerous camp fires, the consumption of gun powder, the vibrations of the air from heavy volleys of fire arms, or the incessant explosions of larger distructives, may influence the electric condition of the atmosphere which surrounds our earth. The dead bodies of thousands of men and animals exposed; with other exhalations we cannot estimate, must cause changes which exercise some controul over the seasons, and effect evil or good, according to ordinances, established from the beginning, called with proper reverance, "Laws of God." We must examine these carefully, discreetly, circumspectly and knowingly to distinguish both their causes and effects upon the seasons, and upon the health and welfare of men, fruits and vegetables.

An ancient book describes God "to answer Job out of the whirlwind:" Hath the rain a father? Who hath begotten the drops of dew? Out of whose womb came the ice? and the hoary frost of heaven, who hath gendered it?

Hast thou seen the treasures of the hail, which I have reserved against the time of trouble, against the day of battle and of war?

We may expect every variety of interruption in the ordinary course of the seasons. Let us prepare for any emergency, and reconcile ourselves, by due precaution, for every event we cannot controul.

From Richmond.

We copy the annexed items of news from the Richmond *Examiner* of the 25th inst:

JOHN MINOR BOTTS.—It was rumored and believed, yesterday, that the government had decided to send this gentleman farther South.

PARDON REFUSED.—The President has rejected the petition of Mr. J. H. Gilmer, praying the pardon of Richards, *alias* Napoleon, convicted of passing counterfeit Confederate Treasury notes, and sentenced by Judge Halyburton to be hung on the 9th day of May next.

The criminal is said to be in a most pitiable condition. Terror of his approaching fate has utterly unmanned him. He weeps and howls day and night continually.

THE SPIES.—The judgment of the court martial in the case of Timothy Webster has not been made known, but it is the belief of those who should be best informed on the subject that he will be sentenced to be hung, and Lewis and Scully, his aids, along with him.

The Federal accounts from Yorktown claim that their gunboats have advanced within two miles of Yorktown, and that in bombarding the place they had silenced three of our guns.

A dispatch is said to have been received by General Buell's wife from him, stating that he was not injured in the late battle at Pittsburg.

From Nassau.

The Nassau correspondent of the Havana *Diario*, under date of the 3d instant, says that Confederate vessels continue to arrive at the former place.

On the 30th March, the famous steamship Nashville was in that port, and had arrived there in ballast. She has been placed under the English flag, and her name changed to the Thomas L. Wragg.

The British steamship Southwick, with an assorted cargo, had arrived from London.

The British steam sloop Bull Dog had gone on a cruise, and the frigate Liffey had arrived there.

Glorious News—if True.

The Montgomery (Ala.) *Advertiser* of April 20th contains the following, under the head of "Glorious News?—Nashville Retaken!"

[The following report we take from the Mobile *Tribune* of yesterday. We are not disposed to believe Madame Rumour, but give this for what it is worth, and leave the reader to believe it or not, as he may be inclined—ED. ADV.]

Passengers who arrived here this (Friday) morning from Corinth, state that it was a current rumor at that place yesterday morning that Nashville had been retaken by our forces. From all we can learn we are forced to believe the report is true.

It is stated that Gens. Kirby Smith and Humprey Marshall with their united forces marched into Nashville and took three or four thousand Yankee prisoners.

A short time afterwards the Yankee gunboats came up the river for the purpose of shelling the city. Our Generals sent them word that if they fired a shell they would hang every one of the prisoners.

It is stated also that our troops took over a million dollars worth of pork and bacon from the enemy.

The passengers also state that it was fully believed at Corinth, that the enemy was evacuating its position above Corinth and going to their gunboats.

The following is a copy of a handbill posted up in Alexandria on the news of the battle of Corinth:

"Grand Confederate Victory at Corinth.
Yankee Doodle once more defeated.
General Prentice and Brigade Captured.
Noble Beauregard, God bless him, still uninjured."

Cheer up, friends of the noble cause, and return thanks to Almighty God for our victory over the base hordes of Yankee invaders, and never, never despair.

A. SECESH GIRL.

THE PLANTERS OF MISSISSIPPI.—A friend writing us gives the following interesting

"I am just from Coahoma county, Mississippi. In passing through the entire State corn and meat seem to be the rage with the farmers; but little cotton planted from Coahoma. I passed down the bottom between Sunflower and Tallahassee rivers, crossing Yezoo river at Greenwood, and in all this rich section of the State corn is principally planted."

The *Tomatto* should receive particular attention from our farmers its extensive cultivation is necessary for the preservation of the health of our soldiers. The Tomato seems to have a direct and peculiar action on the liver, producing all the beneficial effects of mercurial preparations, without any of the injurious. It is said that the great success of the celebrated Spanish Bitters of Dr. Zavis is owing to its principle ingredients being the active principle of this plant. In confirmation of its value, we have heard one of our most distinguished physicians remark that whenever he felt unwell in the spring of the year, he knew that it arose from torpor of his liver, and he invaribly relieved himself by partaking of this vegitable for his dinner. We trust that our troops will be frequently supplied with it, as it is both hygienic and nourishing.

Exemptions under the Conscription Law of Congress.

The following exemption bill was passed by Congress and signed by the President just before the adjournment:

A bill to be entitled "An act to exempt certain persons from enrollment for service in the armies of the Confederate States."

SECTION 1. *The Congress of the Confederate States of America do enact*, That all persons who shall be held to be unfit for military service under rules to be prescribed by the Secretary of War; all in service or employ of the Confederate States; all judicial and executive officers of Confederate or State Governments; the members of both houses of Congress, and of the legislatures of the several States and their respective officers; all clerks of the officers of the State and Confederate Governments allowed by law; all engaged in carrying the mails; all ferrymen on poste routes; all pilots and persons engaged in the marine service, and in actual service on river and railroad routes of transportation; telegraphic operatives and ministers of religion, in the regular discharge of ministerial duties; all engaged in working iron mines, furnaces and foundries; all journeymen printers actually employed in printing newspapers; all presidents and professors of colleges and academies, and all teachers having as many as twenty scholars: superintendents of the public hospitals, lunatic asylums, and the regular nurses and attendants therein, and the teachers employed in the institutions for the deaf and dumb and blind; in each apothecary store now established one apothecary in good standing; who is a practical druggist; superintendents and operatives in wool and other factories, who may be exempted by the Secretary of War, shall be, and are hereby, exempted from military service in the armies of the Confederate States.

Particulars of the Evacuation of Island No. 10.

From the Mobile Register and Advertiser.

MEMPHIS, April 16.—The Memphis papers of Saturday contain an account of the evacuation of Island No. 10. by the Confederate troops.

A gunboat and tug passed down during the storm on the night of the 4th. silenced our batteries below and landed a force on the east side of the river. This movement made the evacuation of the Island a military necessity.

The Island was evacuated on Tuesday, 8th inst. Our guns were all spiked and all the transports but two were scuttled and sunk, and our men tried to escape. out of a force of about fifteen hundred, one third were captured, including all of the 1st Alabama, except about one hundred and forty men.

Col. Steadman was sick, and was carried four miles, and left in a house on the road. Those who escaped suffered greatly in the water and from hunger. I have seen two Alabamians who escaped from the Island, but they cannot give the names of the captured men.

It is reported that the enemy are tailing back down the Tennessee.

[The forgoing is in part old news, but it is the first direct and authentic statement we have received of the loss of Island 10. The rumor of the evacuation was current a week ago, but was afterwards denied, and we have since northern reports affirming the capture of the Island. To settle the matter, we telegraphed our correspondent, who has just returned to Memphis, and sent us the facts. The above is his his reply.—EDS.]

How the women make Powder.

We copy a portion of a letter addressed to Lieut McClung, at Knoxville, by a lady in Sullivan county, East Tennessee:

"I saw some weeks ago an article in the Register on the "making of Saltpeter," and that the earth under old houses contained more or less nitre. I also learned that the Government was in great need of saltpetre, in order to make powder for our brave boys now in the field. Well, sir, I felt, though I am a woman, that it was my duty to do what I could for my county; so, having an old house with dry dirt under it, I determined to make a trial. I threw out the ashes in my ash-hopper, and had two others built. I then had the dirt under the house dug up and put into the hoppers.

I then run water through one of the hoppers, and then passed the water through the other two. After which I added lye to the water until the curdling ceased. I then boiled it until it was thick, when the pot was set off the fire. In a few hours the saltpetre had formed into beautiful crystials. I poured water three times through each hopper, and then boiled it down. The result is just one hundred pounds of beautiful saltpetre, according to my husband's weighing. It was very little trouble to me.

"Now, sir, I see you are the agent for the Government. I want to hand it over to you to be used in defending my country.

The Knoxville Register adds that a citizen of Jefferson county, Tenn., made from the dust beneath a single old house two hundred and eight pounds of saltpetre, which with the nitre and sulphur added, was converted into two hundred and fifty pounds of powder. Everybody can do something to help on the cause.

GEN. SHIELDS REPORTED DEAD.—A gentleman recently arrived here from the Valley says that it was reported and believed in that section that Gen. Shields had died of his wound. Two eminent surgeons were sent, or taken up to Winchester, by Seward; but the life of Shields could not be saved. It is supposed that mortification had ensued. We give the report as we received it, without vouching for the truth.

[*Lynchburg Republican.*

CAPTURE OF A BRITISH FLAG.—Captain Klinck yesterday obtained a British flag which a well known firm had placed upon a lot of Cotton, as a protection in case of Federal occupation of the city. It is no doubt a very nice arrangement for people to make fortunes out of the South, and then protect their property, should the city fall into the hands of the enemy by running up a British or French flag.

[*Memphis Argus.*

THE YANKEE SPIES AT CHATTANOOGA.—We learn, and vouch for the truth of the statement, that twenty-three of the Yankee spies concernod in the late daring attempt to burn the bridges of the State Road, for which purpose the seizure of an engine on the road was recently effected, have been captured, and that most of them, on Friday, were put upon trial before military court at Chattanooga, ordered to convene there by Gen. Ledbetter, the Confederate commander of that post. The result of the trial we do not know. We learn, however, that the captured rascals confess their guilt, but claim, some of them, that they were ordered here from their regiments.

The leader, we also learn, is a man named Andrews, who is known to have once lived. When captured, he offered $10,000 to be released. Several thousand dollars have been found upon his person. He is an unmitigated Yankee scoundrel, but reckless and daring. He, we learn, confesses nothing.

The result of the trial of these men we have not yet heard. Possibly we may never hear it. But if it be proper, and it be made known to us, shall inform our readers.—*Atlanta Intelligencer.*

SMALL POX.—We learn that a gentleman who arrived here on yesterday, direct from Eastern Kentucky, reports that this loathsome disease has broken out in the Lincoln camps in that region, and is raging fearfully. This gentleman was one of the party of Confederate cavalry captured some weeks since near Big Creek Cap. He effected his escape and came directly to Knoxville, and his statement may be relied upon. We also understand that the disease has made its appearance in Powell's Valley, having been brought there from Kentucky by a renegade Tennesseean.

Telegraphed Expressly for the Bulletin.]

RICHMOND, April 23.

All is quiet on the Peninsula to-day.

We have received no news of importance to communicate.

AUGUSTA, April 22.

The New Orleans *Picayune* has a dispatch from Corinth, dated 16th, which says that the report in the Memphis papers of the landing of a Federal force near Fort Pillow is untrue. Generals Breckinridge and Hindman have been appointed major-generals. Col. Thomas Jordan, assistant-adjutant-general to General Beauregard, has been appointed brigadier-general, and Capt. Jack Morgan, colonel.

From Florida.

SAVANNAH, April 22.

The post bill from Tampa, Florida, has the following announcement endorsed on it:

The commander of the blockading fleet within two miles of Tampa has sent a boat here and ordered the town to surrender or be bombarded. Major Thomas replied:

"Come on, then, and take us; I *shall not surrender.*"

From the Mississippi Valley.

MEMPHIS, April 21.

Late accounts from Missouri say that Gen. Seigle died of pneumonia, at Keitsville, some days ago. The Louisville papers admit that Gen. Buell arrived at the Tennessee Sunday evening of the battle, and crossed the river with his forces that night, and that the whole were engaged in the fight of Monday.

Reliable accounts from Nashville say four thousand Kentucky troops have quit the army and gone home, in disgust, on account of Lincoln's Abolition policy. There are nine thousand sick troops at Nashville. The Federals are reported to be moving their sick and stores from the city. Tremendous rains have fallen here for the last four days; the country is flooded, and land operations have become impossible. It is believed here that the Federal forces at Madrid have abandoned the place, and gone up the Tennessee river to reinforce the army in that quarter.

The New Orleans *Delta* says:

The number of foreigners in this city who have resorted to the pitiful and unmanly evasion of the responsibilities of alien residents is quite small. Considering the respective populations of Charleston and New Orleans, the number who have claimed Consular protection in this city is relatively much smaller than that in Charleston. We point with pride and pleasure to our two "Foreign Brigades," numbering together about nine thousand men.

PUBLIC NOTICE!

Resolved, That this committee look upon any such course as an evidence of unsoundness on the part of the persons engaged in it, and that they call on all good citizens to report any case of the kind which may come to their knowledge that the committee may publish the names and take such course as they may deem necessary.
